About our club:

Our members include all levels of competency from beginners to very talented and creative photographers.

New members discover that their photographic skills improve simply because they experience the stimulation of fresh ideas and techniques that are generated by mixing with others of similar interests.

Our club outings provide opportunities for members to get to know each other, to improve their techniques and to visit locations that provide photographic opportunities.

We cater for a variety of interest including colour prints, monochrome prints and digital photographs.

All members are encouraged to enter our monthly competitions.
